

HB 1109 -- ROAD IMPROVEMENT

SPONSOR: Christofanelli

This bill creates the "Interstate 70 Improvement Fund" and specifies percentage amounts from general sales and use tax for the fund which will expire after 10 years. It also sends 2% of such taxes to the state road fund.

The bill also requires the Missouri Department of Transportation to cease responsibility for roads not subject to federal aid and to divest itself of such roads by conveying them to county highway commissions by August 28, 2022.

The fund requirements are suspended in any year where less than \$300 million is spent on Interstate 70 maintenance and improvement.

This bill is similar to SB 457 (2017).
